

WRONG

Standing Against the Wind

Intervention On The Area On Fire
From Above And Behind

Intervention from Below to Flammable and
Combustible Substances Dripping From Above

Using Fire Extinguishers One By One

Leaving The Fire Scene

Hanging Used Extinguishers in Place

CORRECT

Taking The Wind Back

Putting Out The Front First,
Then The Forward

Intervention from Drip and Leakage Point,
That is, from Above

Using Existing Fire Extinguishers Simultaneously
From Different Directions

Not Leaving The Fire Scene Before
The Fire Is Completely Extinguished

Sending the Used Extinguishers for refilling
